

# creating prosperity in Angola

five ways chevron's partnership with  
Angola is creating a positive  
economic ripple effect

## job growth

nearly

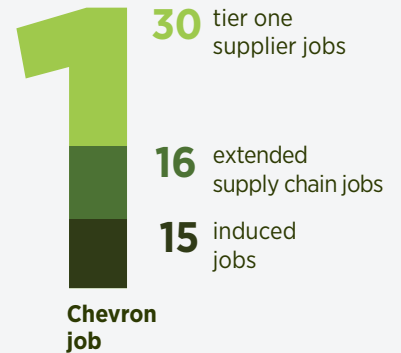

# 79,000 jobs

supported by Chevron activity

that's greater than the population  
of Soyo, where the Angola LNG  
plant is located

## job opportunities

each Chevron production job supported an average of 61 other jobs in Angola (2010 to 2016)

## gross domestic product

# 5.8 percent

of Angola's GDP can be attributed to Chevron's direct spending and investment (2010 to 2016)

## local suppliers

# \$2.16 billion

spent on tier one Angolan suppliers and service providers (2010 to 2016)

## government revenue

# \$2.67 billion

generated in government revenue (2010 to 2016)

In 2017, Chevron commissioned research firm IHS Markit, who also engaged the Catholic University of Angola, to quantify how our Angolan operations contribute to the country's economy. Chevron is an interest owner and the operator of Block 0 and Block 14, and holds a non-operated interest in the Angola LNG facility. The weighted average of these three equity stakes is approximately 37%, which is reflected in all figures shown. Monetary figures are in U.S. dollars.
