

BID Announcement for Companies

Cabinda Gulf Oil Company Ltd (CABGOC), Chevron subsidiary is one of Angola's top petroleum producers, is going to be issuing a Tender for the services described below:

BID Announcement Number: RFBA-015-FE-2019

Scope of Work

The Contractor shall provide all necessary resources, facilities, vessels, rigging, equipment, labor, supervision, engineering, services, tools and materials and other resources required to accomplish safe installation of new Catenary Anchor Leg Mooring (CALM) buoys.

Contractor shall be able to provide the following:

- Develop decommissioning and installation plans, procedures and schedule including all offshore support vessels, equipment, manpower, tools and spares to ensure safe decommissioning, disconnection, reinstallation and commissioning of buoys
- Provide a suitable dive support vessel to perform a pre-offshore inspection of buoys PLEM, subsea piping, hoses, chain, etc.
- Provide a suitable vessel and marine equipment to disconnect, recover and transport buoy's two polyester mooring hawsers to the CABGOC Malongo Terminal on shore.
- Provide a suitable vessel to safely tow the new buoys to location and tow the existing buoys to the area appointed by the Company.
- Provide a suitable vessel and marine equipment to recover and connect to the CALM's two 20" export floating hose strings so it can backflush the hoses using sea water injected with Company provided chemical inhibitors. The vessel will also need to be suitable to recover and transport the two 20" under buoy hose strings and their attached umbilicals that will be disconnected from the buoy's hull connections and PLEM.
- Provide a suitable offshore spread to enable the disconnection of all six (6) anchor chain mooring legs from the buoy's six (6) chain stoppers, and their placement on the seabed.

The Contractor shall have an ISO 9000 certification and have an effective quality program. The Contractor shall accomplish all activities and work on and offshore, in accordance with the specifications, classification society rules, high standard of marine and commercial best practices, and the directions of the Owner's representative.

The Contractor will be held responsible for the protection of the buoy and all existing on and off buoy equipment and materials during the entire offshore campaign period.

If a company is qualified based on the described services and is interested in being considered for participation in that tender they can submit their information through our website www.chevroninangola.com, Suppliers page, BID Announcement; fill the Supplier information form and forward to concurso@chevron.com within the time stipulated in the internet.
